

When do I start paying the usage rate?

Joachim Ulbrich - 2024-10-07 - Contract & Taxes

The timing and start of the salary conversion varies from employer to employer. You can find information on this on your intranet. In addition, the start date for the salary conversion is specified in your agreement, which you will receive with the order confirmation by e-mail.

By the way: Articles that are delivered before the start date can of course be used in the period before the start date.
