Is it possible to buy the devices?

Joachim Ulbrich - 2026-10-20 - Device Purchase After the Usage Period

Yes, this is possible. Usually, the devices are offered to you for purchasing after the end of use.

As mentioned when placing the order, the purchase price is based on your gross installment and is between two and four gross installments.

You become the owner of the device only after the remaining amount has been paid and the 24-month period has expired.
