Password reset does not work

Lorena Giresi - 2024-12-09 - End of contract & acquisition

We usually have two e-mail addresses on file - the business e-mail address and the private e-mail address.

You have probably activated the account on the other e-mail address.

Please try resetting it with a different e-mail address.

If you do not receive an e-mail even with a different e-mail address, please check your spam folder.
