

Availability

Joachim Ulbrich - 2024-10-07 - Login & ordering

The order portals of the employee PC programme are only open for a certain period of time, during which a large quantity of products that is difficult to calculate in advance is ordered.

It is therefore not possible to reorder or make subsequent deliveries during the programme.

If an item is no longer available in the order portal, we ask for your understanding that it can no longer be reordered.
